July 2025

Green Flag Award

We are delighted to have once again been awarded the Eco-Schools Green Flag, this time with Distinction!

The Eco-Schools Green Flag is an international accreditation that recognises efforts to raise environmental awareness amongst young people, whilst taking action to make their school more sustainable. Pheasey has now retained its status as an accredited Eco-School, following our achievement last year.

They were impressed with our involvement in various campaigns, the work of the Eco Warriors and our Eco links across the curriculum.

The Eco Warriors are very proud of their achievement - and so they should be!

Feedback

Green Flag Award, 2025

Pheasey Park Farm Primary School and Early Years Centre

Award Level: Distinction

Focus topics:

Whole-School Eco Day

Eco-Themed Learning

The Eco Warriors were so impressed with the range of work created during our whole-school Eco Day!

Year 1 created posters with reasons why walking to school is good for the planet, Year 2 gave everyone water-saving tips and Year 5 researched arguments for and against deforestation - just to name a few.

Assembly

To end the day, our Eco Warriors led an assembly for the whole school where they shared all of the fantastic work that their year groups had created.

They delivered their assembly clearly and confidently - well done!

Cash For Clothes

Thank you to everyone who donated clothes and shoes to the Cash for Clothes collection. The KS1 Eco Warriors enjoyed helping out with the collection by carrying the bags out to the Cash for Clothes van.

The collection raised £51.60 for the school.

Eco Committee Meetings

This term, the Eco Warriors have been busy attending meetings, presenting KS1 and KS2 assemblies and continuing with their Energy Monitoring every lunchtime. In our meetings, we have started thinking ahead to next year and what the Eco Warriors should focus on - the Eco Warriors have had some fantastic ideas! Well done to all of this year's Eco Warriors - they have worked incredibly hard and should be proud of themselves!

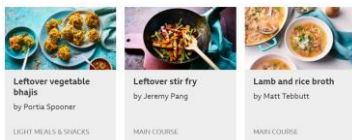

Tips to Save Waste ...

Did you know?

Using your leftovers for different recipes is a great way of reducing food waste.

Over the summer, you may want to try cooking some of the BBC Food 'Leftovers Recipes'. Which one will you choose?

Water Saving Tip

Take advantage of living in a rainy country!

Collect rainwater in a water butt (or any other vessel!) over the next couple of months and use it to water your plants on those warm days. This is especially handy to have if there's a hose pipe ban!
