Glossary of terms used in EYFS Maths teaching in Primary Schools

Addition Finding the total value of two or more numbers. Denoted by the '+'. Calculation Working out the amount or number of something, usually by us of the four operations. Circle A 2D shape with one curved face and no vertices Anything which children may use to help them carry out practic activities, for example counters to help with addition, cubes and place value or playdough to make 3D shapes. Even numbers All numbers that are exactly divisible by 2. Even numbers always with 0, 2, 4, 6 or 8. Measurement In Maths, children learn about different forms of measurement, including length, weight (mass), capacity, time and temperature. Number bonds Pairs of numbers that add up to a specific number. For example number bonds to 10 are 10 + 0, 9 + 1, 8 + 2 and so on. Children is	sing one cal maths d rods for rs end
Of the four operations. Circle A 2D shape with one curved face and no vertices Concrete materials Anything which children may use to help them carry out practic activities, for example counters to help with addition, cubes and place value or playdough to make 3D shapes. Even numbers All numbers that are exactly divisible by 2. Even numbers alway with 0, 2, 4, 6 or 8. Measurement In Maths, children learn about different forms of measurement, including length, weight (mass), capacity, time and temperature. Number bonds Pairs of numbers that add up to a specific number. For example number bonds to 10 are 10 + 0, 9 + 1, 8 + 2 and so on. Children is	cal maths d rods for rs end

For example number bonds to 10 are 10 + 0, 9 + 1, 8 + 2 and so on. Children and place value or playdough to make 3D shapes.	d rods for es end e,
with 0, 2, 4, 6 or 8. Measurement In Maths, children learn about different forms of measurement, including length, weight (mass), capacity, time and temperature. Number bonds Pairs of numbers that add up to a specific number. For example number bonds to 10 are 10 + 0, 9 + 1, 8 + 2 and so on. Children a	e e, the
Number bonds Pairs of numbers that add up to a specific number. For example number bonds to 10 are 10 + 0, 9 + 1, 8 + 2 and so on. Children	e, the
number bonds to 10 are 10 + 0, 9 + 1, 8 + 2 and so on. Children	
taught these bonds early on, as they help calculation skills and a patterns that are repeated for other number bonds, for example 100	also show
Number line A visual representation of numbers along a horizontal line. Can zero or represent a set of numbers from elsewhere in the numb system. Used to support counting, place value and calculation s	oer
Numicon A primary school teaching aid consisting of plastic tiles with hole represent the numbers 1 to 10 and can be used to teach place vordering and calculation	
Odd numbers All whole numbers which are not exactly divisible by 2. Odd numbers always end in 1, 3, 5, 7 or 9.	nbers
Rectangle A 2D shape with four straight sides and four right angles. Oppose are the same length	site sides
Sharing Children learn early on how to share a number of objects into early understanding of division.	qual
Square A 2D shape with four equal sides, four vertices and four right an	ngles
Subtraction Taking one number away from another, finding the difference by the two. Denoted by the symbol '-'.	etween
Sum The result of adding two numbers together.	
2D shapes Shapes which are flat, having only two dimensions – height/leng width.	gth and
