Dear Parents and Carers,

Edtech Journey - Provision of devices for children in class 4LB

As you may be aware, children in class 4LB have been using individual Surface devices in the classroom. We are delighted to share with you the next step of our EdTech journey and now, all children in class 4LB will be issued with their own Microsoft Surface Go2 to use in the classroom and at home. In order to support our vision to provide the children with continuous learning opportunities we are planning for the children to be able to take the device home with them from school each morning and then bring it back to school each day.

We have created a pre-recorded webinar to share with you the rationale and reasoning behind this initiative as well as explaining the procedures and expectations. The webinar is available for you to view via your child's Class page on the Learning Platform. A link to a Microsoft Form will be sent text to confirm you have watched the pre-recorded webinar. We will also be sending home a paper copy of a Pupil Device Loan Agreement with your child today that will contain your child's unique serial number which is the device's asset tag. You will also receive a link via text to a Microsoft Form regarding our Acceptable Use Policy.

In order for us to distribute the devices to the children after half term, we will require completion of the Microsoft Forms online and completion and return of the Pupil Device Loan Agreement.

We know the children will be really excited to be a part of this exciting journey and we are hoping to roll this initiative out wider across school shortly.

If you have any queries relating to this, please contact the School Office.

Thank you for your continued support.

Yours sincerely,

Mrs L. Eveson
EdTech Leader
