

Activity 2: Understanding Size

Tell the story - Goldilocks and the 3 bears.

Act out the story and use props to demonstrate the different size objects within the story.

Using 3 different sized bowls - explain the size difference using the words bigger and smaller. Fill the bowls with water (porridge if you prefer) to show your child clearly that the bowls hold different amounts due to their size.

Activity 3: Shopping

You will need: toys, sticky labels and coins.

Using the sticky labels price the toys - allow your child to write the labels. Use amounts that match the coins you have (1p, 2p, 5p, 10p, 20p)

Play shop with your child asking them to match the correct coin to the item so they can buy it. This activity is for coin recognition, not making different amounts with coins.

These targets show some of the things your child should be able to do at the end of this term. Some children will be working on these targets, some children will be working towards these targets and some children will be working beyond these targets.

PHEASEY PARK FARM PRIMARY SCHOOL

Target Booklets - to support mathematical development and enhance vocabulary understanding

Key Mathematical Vocabulary

Your child will be using the following vocabulary in their Maths lessons this year. Please refer to the words as frequently as possible to support your child's learning.

Reception

One more than

One less than

Monday, Tuesday, Wednesday,

Thursday, Friday, Saturday, Sunday

Tomorrow

Yesterday

Shape

Bigger / Smaller

Count back from

Tall / Short

BY THE END OF THIS YEAR, MOST CHILDREN IN RECEPTION SHOULD BE ABLE TO...

- Talk about and recognise patterns.
- Say days of the week in order.
- Find one more and one less of an amount
- Sort familiar objects and compare their similarities and differences.
- Match sets of numerals that represent the number of objects.
- Use words such as bigger and smaller to describe size.
- Count in ones from 0-20
- Count in ones back from 20-0
- Use shapes to make pictures and patterns

Fun Activities To Do At home

Activity 1: Making Patterns

You need;

- 1) Old magazines or catalogues
- 2) Scissors
- 3) Glue
- 4) Piece of paper

Allow your child to cut out pictures to follow a pattern.

E.g. Blue object, red object, blue object, red object.

Children are to stick the cuttings to the paper forming a repeating pattern.
