Monday 29th November 2021

Dear Parents and Carers,

What's Under Your Feet - Biodiversity Campaign 1

This week we will be participating in the first part of the Biodiversity Campaign through representatives from each class acting as citizen scientists and carrying out some important fieldwork.

This has been agreed as a campaign by Eco Committee and organised by Mrs Welter, a representative of Eco Committee and our Science Curriculum Leader, Miss Yoncaci.

A small patch of the playing field will be dug up by selected children/staff and turned over to see what can be seen. They will be looking for soil invertebrates otherwise known as worms, beetles, snails... basically any creature that doesn't have a backbone.

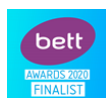

Children will sort the soil invertebrates into groups using classification charts and count them. Results will then be uploaded onto The Pod for analysis by scientists.

It's important that we remember that there are living creatures under our feet which contribute to our environment.

Yours sincerely,

A Welter

Mrs A. Welter and the Eco Committee
Assistant Head Teacher
